

## The Subregional Plan for Almanzora should come from the region

Translated from La Voz de Almeria Newspaper Supplement, March 5th, 2008

Luis Aurelio Perez Tapia, president of the Association of Entrepreneurs and Professionals of Albox, Valle de Almanzora (AEPA) made a plea to our administration which was reported in the Voz de Almeria.

We still hope that the leadership takes any measure that allows the reactivation of British tourism that has revived towns in the region and not leave us bleeding to death, with nice words and promises that have yet to be fulfilled.

Perhaps the Sub Regional plans are not the solution to the problem, but they can be like a door that opens to hope for this part of the Valle del Almanzora.

At this moment of uncertainty, we need an active and agile administration, that launches initiatives to fill us with hope, that does not discard each proposal, destroying the dreams of a town. I take this opportunity to make a request, to say to the Administration of Andalucia that the sub regional plan of Valle del Almanzora should be from the bottom up, or from the region, if we wish to change and not make a suit that does not

fit and then has to be altered.
