The delegate for housing and urban planning disagrees with the general findings of the Fiscalias report stating that of all the autonomous regions, Almeria is taking the strongest measures to control urban abuse. In his view the number of cases of urban abuse have reduced from 2006 to 2007 through the efforts of the office of the fiscalia, the regional police, the Guardia Civil and the Juntas own inspectors.

Diego Asensio, secretary of PSOE in Almeria stated that his organisation had a zero tolerance policy on urban abuse. The PP had no comment on the report.

The head of the General Union of Workers in Almeria, Jose Ginel, defending the officials, stated that "You can not put everyone in the same bag," said the the trade unions were convinced that the majority of public employees complied with thier duties properly.
